SUMMARY

Seeking SDE1 Fulltime in 2023. Looking to build products that makes an impact in everyday life. Passionate about learning and problem-solving.

EDUCATION

University of San Francisco
M.S. Computer Science

San Francisco, CA
Aug 2019 – May 2022

City College of San Francisco
Computer Science

San Francisco, CA
Aug 2018 – May 2019

EXPERIENCE

Flexport
Software Engineer

San Francisco, CA
May 2022 – until now

- Devised and implemented a GraphQL API, utilizing React, Kotlin, and Spring, which streamlined the Accounts Payable team's operations. The API enhanced the procurement lead search process and facilitated automatic allocation to different vendors.
- Revitalized the functionality of the Accounts Payable team's work management service, empowering associates to efficiently process daily invoices from a variety of vendors. This was accomplished through the effective use of Kotlin, GraphQL, and React.

Intuit
Software Engineer Intern

Mountain View, CA (Remote)
May 2021 – Aug 2021

- Designed and implemented a Restful API for ingesting customer transaction data using Spring Boot, and added JUnit test coverage
- Implemented an Apache Kafka producer for Credit Karma's predictive insights service, populating large volumes of streaming data into the topic

SELECTED PROJECTS

Distributed File System & Computation Engine

- Designed and developed fault tolerant DFS from scratch based off of Hadoop DFS using Go and support MapReduce jobs

WordPress to Jamstack Migration

<https://www.bitcoinnoobs.com/>

- Migrated a cryptocurrency Wordpress blog to a Jamstack site using Nuxt.js, Netlify and built the data pipeline using AWS S3, Lambda to get top 100 crypto prices

Travel Helper Web Application

- Developed a website with a subset of the functionality of TripAdvisor, where users can register, login, search for hotels and reviews, view hotel information, write and edit hotel reviews, view nearby attractions or restaurants

COVID-19 Data Visualization

<https://bit.ly/misha>

- Immersive visualization of the geographic spread of the pandemic built with d3.js
